

## Before Business Process Automation (BPA)

Task reminders  
made **manually**

**Manual**  
coordination and  
communication

Unnecessary  
**duplicate work**

**Lack of cohesion**  
between assignments  
and objectives

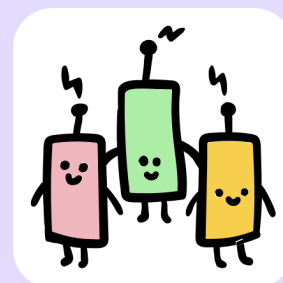

## After Business Process Automation (BPA)

Task reminders  
on a **recurring basis**

Message  
**reminders**

Projects  
always go to  
the **right person**

**Visual and  
target-driven  
tasks**
